

# Quick How-To:

## How to Check the Weather Online

---

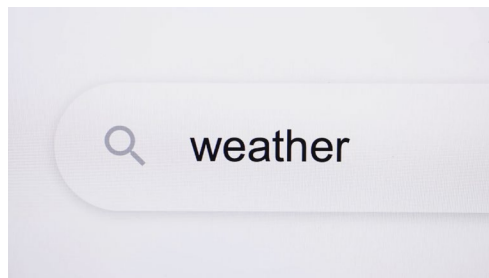

### Who is this for?

This guide is for learners who want to know the current weather or forecast for their village or travel destination using a phone, tablet, or computer.

### Step-by-Step Instructions

#### Step 1: Go to Google or a Weather Website

- Open your internet browser.
- Go to **www.weather.com** or search on Google.

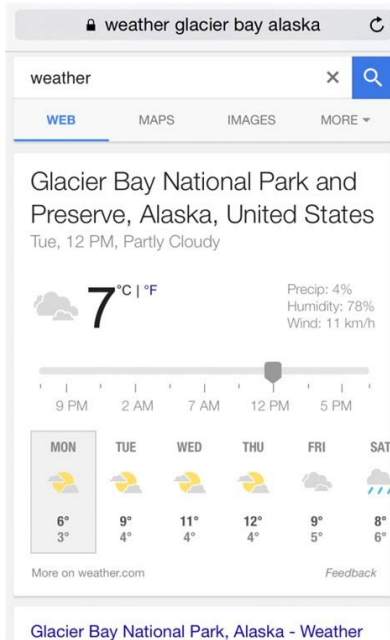

#### Step 2: Type or Speak Your Location

- Enter your city, village, or ZIP code.
- Or use voice search if that's easier.

#### Step 3: Read the Forecast

- You'll see today's weather.
- Scroll to see hourly or 7-day forecasts.

#### Step 4: Save a Weather App (Optional)

- Download an app like **Weather Channel** or **MyRadar** for quick updates.

#### You Did It!

Now you can check the weather anytime — to plan your day or prepare for travel.
