

# Quick How-To:

## How to Update Apps Manually

---

### Who is this for?

This guide is for learners who want to keep their apps working well by manually checking for updates through the App Store or Play Store.

### Step-by-Step Instructions

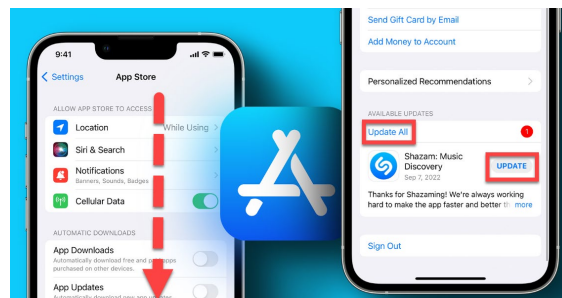

#### Step 1: Open the App Store or Google Play Store

- iPhone/iPad: Tap the **App Store** icon.
- Android: Tap the **Play Store** icon.

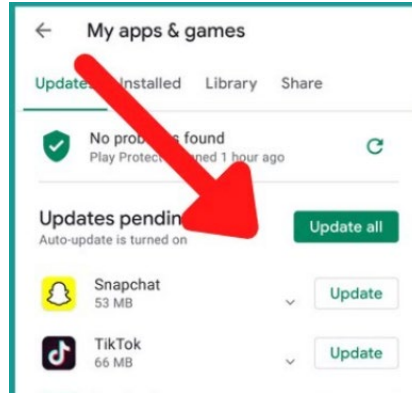

#### Step 2: Go to Updates

- On iPhone: Tap your profile picture, then scroll to see available updates.

- On Android: Tap your profile > **Manage apps & device** > **Updates available**.

### Step 3: Tap 'Update' Next to the App

- You can tap **Update All**, or just update specific apps.
- Apps will begin downloading updates right away.

### Step 4: Wait for the Update to Finish

- The app will refresh with the latest features and fixes.

### You Did It!

Your apps are now up to date — and ready to work their best.
