

Quick How-To:

How to Set a Passcode or Lock on Your Device

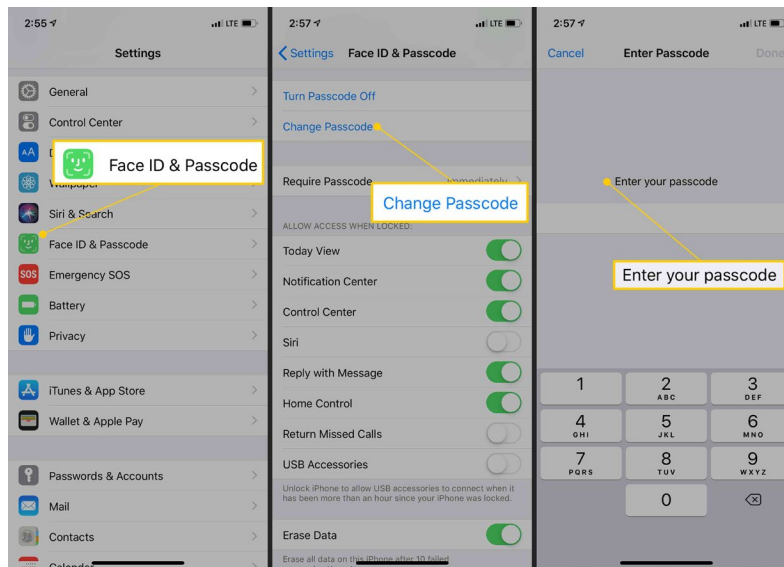

Who is this for?

This guide is for anyone wanting to learn how to keep their phone, tablet, or computer safe by setting a passcode, pattern, fingerprint, or facial recognition lock.

Step-by-Step Instructions

Step 1: Open Settings

- On your phone or tablet, go to **Settings**.
- Look for **Security, Face ID & Passcode, or Lock Screen**.

Step 2: Choose Your Lock Type

- Pick from a PIN, password, pattern, fingerprint, or face scan.
- Follow the instructions to set it up.

Step 3: Test the Lock

- Lock your screen and try unlocking with your new method.
Making sure you always remember your code or backup option.

You Did It!

You now know how to lock your device. You can chose a pin, a password, pattern, fingerprint or facial scan to unlock.
